Reviewer's report

Title: Household Food Insecurity and Mental Distress among Pregnant Women in Southwestern Ethiopia: A cross sectional study design

Version: 4 Date: 14 April 2015

Reviewer: Amber Hromi-Fiedler

Reviewer's report:

The revisions the authors have made to the manuscript adequately address my initial comments. The manuscript is strengthened and applies to a wide audience.

The only minor revisions needed are to Table 3:

Under the crude OR column:
- a) Marital status is missing the reference category of “1”
- b) The COR and reference are reversed for Land ownership
- c) The COR is missing for place of delivery

Also, food secure, as the reference category, should be listed last, not first.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
