Reviewer's report

Title: Compliance with national recommendations for exercise during pregnancy in a Danish cohort - a cross sectional study

Version: 3  Date: 20 July 2015

Reviewer: Silvia Salvi

Reviewer's report:

The changes the authors have performed have improved the manuscript. The abstract is well constructed. The introduction is clearer with the aims of the study correctly defined. The results and discussion are now well described and correctly explain the main aim of the study, the findings and the limitation of the study.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
