Title: Innovative approaches for improving maternal and newborn health - A landscape analysis

Version: 5 Date: 2 November 2015

Reviewer: Tanya J Marchant

Reviewer’s report:

Innovative approaches for improving maternal and newborn health: A landscape analysis

Thank you for the opportunity to comment on the revised version of this manuscript. The authors have done an excellent job of addressing reviewers’ comments and the manuscript is more clear and measured as a result. Particular thanks for the response about the geographic distribution of innovations by building block. I think this table is very interesting - but happy for the editors to decide on final inclusion.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
