Reviewer’s report

Title: Factors determining satisfaction among facility-based maternity clients in Nepal

Version: 1 Date: 06 Sep 2017

Reviewer: Sudesh Raj Sharma

Reviewer's report:

- I acknowledge the efforts of the authors to revise the article based on the suggestions from the peer reviewers. The article provides important evidences on why quality of care matters and how the services should be re-oriented towards the end users. It also discusses some social determinants of service utilization by females who are the disadvantaged group in the context of Nepal.

- I did not find any major issues with the article and recommend that article is suitable for publication.

- Due to my language limitation, I am not sufficiently qualified to check the grammatical errors.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
