Reviewer’s report

Title: A low-cost uterine balloon tamponade for management of postpartum hemorrhage: modeling the potential impact on maternal mortality and morbidity in sub-Saharan Africa

Version: 0 Date: 17 Dec 2016

Reviewer: pierre-emmanuel bouet

Reviewer’s report:

It is an original study about the interest of UBT in Sub-Saharan Africa.

Good written, first study to assess the impact of low cost UBT in these countries.

It would be interesting to describe in details the type, the reference of the low cost UBT with a photo and the modalities of utilization.

You have to precise in your discussion that the IC2030 data are unpublished data.

Just minor revisions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
