Reviewer’s report

Title: Mirror syndrome. Resolution of maternal disease after successful fetal intrauterine therapy: a case series

Version: 0 Date: 19 Dec 2017

Reviewer: Rachel Katie Morris

Reviewer's report:

This manuscript includes two cases of resolution of mirror syndrome following invasive fetal therapies. There are multiple such case reports and larger series within the published literature and these cases do not add to this body of literature.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
