Title: Integrated mental health care in a multidisciplinary maternal and child health service in the community: The findings from the Suzaka trial

Version: 0 Date: 27 Aug 2018

Reviewer: Hyun-Joo Lim

Reviewer's report:

The current paper provides valuable information on the positive impact of multidisciplinary perinatal care for the postpartum experiences of women in the context of Japan. Although the study is based on a small area of Japan, it has potential to be applied to wider areas nationally as well as internationally. Therefore, I recommend the publication of the study in the Journal.

The manuscript has a few typos and spelling mistakes, e.g. p12 line 224, 'as' is repeated twice and p14, L279 'structures' should be 'structured' plus others. The authors need to proofread and correct all those mistakes before resubmission.
