Reviewer’s report

Title: Derivation and validation of a model predicting the likelihood of vaginal birth with labor induction

Version: 0 Date: 18 Dec 2018

Reviewer: Olimpio Moraes

Reviewer’s report:

I congratulate the authors for the paper. This instrument with its external validation will be of great importance for obstetrics and the valorization of bioethical principles in the decision making of the induction of labor or cesarean section.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
