Reviewer’s report

Title: Are preterm birth and intra-uterine growth restriction more common in Western Australian children of immigrant backgrounds? A population based data linkage study.

Version: 1 Date: 21 Mar 2019

Reviewer: Jeanine Young

Reviewer’s report:

This is well written paper with clear aims, appropriate methodology and statistical analyses, providing valuable information to inform appropriate evidence-based antenatal screening and strategies to reduce risk for Australia’s growing immigrant population of birthing women.

Please check order of names for first author, surname appears first which is not consistent with remaining coauthors.

Previous requests to address revisions in the manuscript have been completed and justified.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
