Reviewer’s report

Title: Male Partner Antenatal Clinic Attendance is Associated with Increased Uptake of Maternal Health Services and Infant BCG Immunization A National Survey in Kenya

Version: 0 Date: 18 May 2019

Reviewer: Susan Walsh

Reviewer's report:

This is a well written manuscript with important implications for improving the health of both women and infants/children. The study design was well done and the statistical analysis was appropriate for collected data. The discussion was insightful and conclusions drawn are reasonable. I think the authors might have suggested a few more conclusions as their data was strong.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
