The manuscript by Muche et al on the Prevalence of Gestational Diabetes Mellitus and Associated Factors among Women Attending Antenatal Care at Gondar Town Public Health Facilities, Northwest Ethiopia is relevant and well carried out. I only have a few comments:

1) Page 3 line 52: There is not only one placental hormone that affects glucose metabolism in pregnancy. Please elaborate on this.

2) Page 9 line 37: The authors write: No significant difference was observed between women with normal glucose profile and GDM as a result of drinking alcohol (P= 0.476) and coffee (P = 0.311). I do not understand this sentence. Is it that the use of coffee and alcohol did not differ in the GDM and the normal group? Please rephrase this.

3) Some of the sentences are in tense and some in past tense especially in the background section. Please you the same tense.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes
Are the conclusions drawn adequately supported by the data shown? 
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? 
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
