Title: Potential Gains in Reproductive-Aged Life Expectancy if Maternal Mortality were Eradicated from the Kintampo Districts of Central Ghana

Reviewer's report:

I would like to appreciate the authors effort for bringing this valuable work.

However, I recommend authors to focus on the definition of "Elimination" versus "Eradication". I prefer the word eradication instead of elimination since elimination is a tricky to think regarding maternal death. Additionally, they have to be consistent regarding usage of abbreviations.

Are the methods appropriate and well described?
