Reviewer’s report

Title: Men’s grief following pregnancy loss and neonatal loss: A systematic review and emerging theoretical model

Version: 0 Date: 25 Sep 2019

Reviewer: Karina Rose Bria

Reviewer's report:

Men's grief following pregnancy or neonatal loss is a highly relevant topic and warrants further research, as suggested in your article. The systematic review highlights some essential elements pertaining to the way men grieve and articulate loss and how important the need for men's experiences with grief to be recognised and validated. Hopefully, further research on this topic will be conducted in the near future.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
