Title: Addressing ethnic disparity in antenatal care: a qualitative evaluation of midwives' experiences with the MAMAACT intervention

Version: 1 Date: 05 Dec 2019

Reviewer: Lisa Garnweidner-Holme

Reviewer's report:

The authors have carefully addressed the comments of the first revision.

I have a few more comments:

In Europe, studies point to immigrant women having a higher risk for negative pregnancy and birth outcomes compared to the native populations (4-6). - Reference 6 includes also studies in the US.

Line 31-32: please clarify already in this sentence if the leaflet and the app were meant for the midwives and/or the pregnant women;

Line 35-47: Please merge the four analytical steps and the new, more detailed description.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
