Reviewer's report

Title: Prevalence and Outcomes of Extrahepatic Primary Malignancy Associated with Hepatocellular Carcinoma in a Korean Population

Version: 2 Date: 6 September 2014

Reviewer: Tun Jie

Reviewer's report:

Major Compulsory Revisions

Data of EHPM staging should be included in the paper. It might help to explain the poor outcomes seen in patients with EHPM.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
