Reviewer's report

Title: Prevalence and Outcomes of Extrahepatic Primary Malignancy Associated with Hepatocellular Carcinoma in a Korean Population

Version: 2 Date: 11 November 2014

Reviewer: Evan Ong

Reviewer's report:

No Major Compulsory Revisions
No Minor Compulsory Revisions

Discretionary Revisions:
It would be interesting to provide data concerning screening that was performed on these patients. The conclusion recommended the continued use of screening tests to rule out the development of EHPM's but did not report on their actual usage and that information may be interesting.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
