Reviewer's report

Title: Epidemiological patterns of asbestos exposure and spatial clusters of incident cases of malignant mesothelioma from the Italian national registry

Version: 2 Date: 11 November 2014

Reviewer: Hyoung-Ryoul Kim

Reviewer's report:

This manuscript is very informative and helpful for making preventive strategies. Method and discussion parts are very detailed and descriptive. However, Table 3 is kind of complicated and not organized. so, you authors should organize this table well.

That's all.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
