Reviewer's report

Title: Multimodality therapy approaches, local and systemic treatment, compared with chemotherapy alone in recurrent glioblastoma.

Version: 2 Date: 16 March 2015

Reviewer: Diana Steinmann

Reviewer's report:

There are no major Compulsory Revisions.
The question is important for daily routine and well defined by authors.
The methods are appropriate and well described.
The data are shown in a useful way and figures and tables are appropriate.
The discussion and conclusions are well balanced and adequately supported by the data.
The limitations were clearly stated and prior publications were well discussed.
The title reflected the main topic of the manuscript.
There is a minor revision in the abstract: the PFS is not declared.

In my opinion, the writing is acceptable, but I feel not able to assess the language.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
