Reviewer's report

Title: Digital imaging in the immunohistochemical evaluation of the proliferation markers Ki67, MCM2 and Geminin, in early breast cancer and their prognostic value

Version: 2
Date: 10 April 2015

Reviewer: Naoki Niikura

Reviewer's report:

The authors research immunohistochemical evaluation of the proliferation marker Ki67, MCM2 and Geminin in early breast cancer. This paper did not show MCM2 and Ki67 as prognostic marker in multivariate analysis. They cannot derived this conclusion from this data.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
