Reviewer’s report

Title: Digital imaging in the immunohistochemical evaluation of the proliferation markers Ki67, MCM2 and Geminin, in early breast cancer and their putative prognostic value

Version: 4 Date: 12 June 2015

Reviewer: Anna-Maria Tokes

Reviewer’s report:

Thank you for the corrections and answers. Unfortunately the table nr. 2 with tumour characteristics was not corrected. Please recalculate the percentages considering only the cases were you have clear data or add an other column with valid % data.

"We have shown for the first time to our knowledge that digital microscopy images can be used....." This is not totally correct, so please correct accordingly

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
