Reviewer's report

Title: Impact of Delays in Initiating Postoperative Chemoradiation While Determining the MGMT Promoter-methylation Statuses of Patients with Primary Glioblastoma

Version: 4 Date: 12 March 2015

Reviewer: Marcin Hetnal

Reviewer's report:

All pointed comments had been included into paper. In my opinion paper is suitable for publication.

Minor:
Authors use word radiationtherapy instead of radioation therapy

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
none
