Reviewer's report

Title: Relationship between circulating tumor cells and epithelial to mesenchymal transition in early breast cancer.

Version: 4  Date: 3 June 2015

Reviewer: Nadia Dandachi

Reviewer's report:

The authors have adequately addressed all the comments raised by the reviewer and in my opinion the manuscript has greatly benefited from these revisions.

There are only some minor comments:

Page 4, line 116: add total number of patients included in this study (N=102).
Page 5, line 143: Include the listed cell lines in materials and methods.
Page 5, line 147: Include FOXc2.

Check for consistent writing. FOXC2 or Foxc2
Replace can't with cannot.
Replace didn't with did not.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
