Reviewer's report

Title: IL-6 signaling between ductal carcinoma in situ cells and carcinoma-associated fibroblasts mediates tumor cell growth and migration

Version: 6 Date: 4 May 2015

Reviewer: Chanitra Thuwajit

Reviewer's report:

After reading it, I think the authors did their best to answer the questions. Even a major suggestion to do immunohistochemistry of IL-6 in patient sera is refused to do because the authors have no patient samples, I think the revised manuscript is now ready for publish in your journal.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
