**Reviewer's report**

**Title:** The human complement inhibitor Sushi Domain-Containing Protein 4 (SUSD4) expression in tumor cells and CD8+ T cells is associated with better prognosis of breast cancer patients.

**Version:** 3  
**Date:** 25 September 2015

**Reviewer:** Wenling Han

**Reviewer's report:**

The authors have answered my points sufficiently well to allow their manuscript to be published.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
