Reviewer’s report

Title: Microarray profiling shows distinct differences between primary tumors and commonly used preclinical models in hepatocellular carcinoma

Version: 3 Date: 11 July 2015

Reviewer: Yunfei Bai

Reviewer’s report:

Minor Essential Revisions
It should need to validate more original HCC tumor samples, the same as other HCC tumor cell models, not only HepG2.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
