Reviewer’s report

Title: Combination of four molecular markers improves thyroid cancer cytologic diagnosis and patients management

Version: 2 Date: 13 May 2015

Reviewer: Pei-Jen Lou

Reviewer’s report:

The authors have successfully developed a 4-gene model to assist the treatment planning of patients with suspicious papillary thyroid cancer. The paper is well-written and the data presented is of clinical and scientific importance.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
