**Reviewer's report:**

Minor coments:
Page 7, line 110 - TC should be removed. gtt should be removed.
page 8, line 129 - samples are collected as plasma - please correct legends for figures 1 (page 19, line 338) and 2 (page 19, line 343). They indicate it is serum. The axis in figures 1 and 2 should be changed to plasma, not serum.
