Reviewer's report

Title: TGF-beta isoforms and receptors mRNA expression in breast tumours: prognostic values and clinical implications

Version: 2 Date: 16 June 2014

Reviewer: Rosemary Akhurst

Reviewer's report:

The authors have addressed most of the requested revisions. There are numerous spelling and grammatical errors throughout.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
