Reviewer’s report

Title: Treatment of gastrointestinal stromal tumours in paediatric and young adult patients with sunitinib: a multicentre case series

Version: 0 Date: 01 Mar 2017

Reviewer: Kuniaki Shirao

Reviewer's report:

This manuscript is very valuable data as the reference for molecular target therapy and chemotherapy against pediatric GIST.

This paper is well written as a case series report.

What is the reason why sunitinib as second line is effective?

Isn't there any data on other treatments of second line setting that can be compared with sunitinib of second line?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
