Reviewer’s report

Title: Combination of anti-PD-1 therapy and stereotactic radiosurgery for a gastric cancer patient with brain metastasis: A case report

Version: 0 Date: 16 Oct 2017

Reviewer: Samuel Chao

Reviewer's report:

This is a well-written case report. The response of the disease in response to pembrolizumab following brain SRS is suggestive of synergistic effect as the authors mentioned. Given this case report is of gastric cancer, this is unique.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
