Reviewer’s report

Title: MGAT1 is a novel transcriptional target of Wnt/β-catenin signaling pathway

Version: 0 Date: 17 Aug 2017

Reviewer: Guido Zaman

Reviewer’s report:

The authors have studied the functional importance of MGAT1, a gene they have previously identified as regulated by upregulation of the Wnt/beta-catenin pathway.

The manuscript is clearly written and their findings are interesting and new. I have a few minor comments:

- The Introduction should end with a summary of the scope and purpose of the study. It now ends within a literature summary.

- Protocols are generally detailed. However, I could not find the source of the Wnt protein used in the experiments to Figure 3. In this Figure they indicate quite a high concentration (micromolar). - Is this correct? Please check.

- Reference 13. Year of publication is 2010. Not 2010. The authors should carefully check the References before submitting the final version.

Are the methods appropriate and well described? If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls? If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown? If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Yes
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
