Reviewer's report

Title: A remarkable response to pazopanib, despite recurrent liver toxicity, in a patient with a high grade endometrial stromal sarcoma, a case report

Version: 2 Date: 01 Jul 2017

Reviewer: Samuel J. Klempner

Reviewer's report:

In the revised manuscript the authors have addressed all prior concerns. Although this case still represents an atypical pazopanib dosing strategy I feel this is a noteworthy case which may be useful to treating clinicians if faced with a similar scenario.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
