Title: Determinants of cancer screening awareness and participation among Indonesian women

Version: 3 Date: 30 Jan 2018

Reviewer: Judith Offman

Reviewer's report:

Thank you very much for addressing my previous comments and changing your multivariate analysis.

Regarding the methods section on clustering, the fact that household clustering was not included should be addressed. So therefore, regarding my previous comment (3), could you please include the explanation you provided on the comparison between models using both community and household cluster with community clusters alone (i.e. the ANOVA you described) in the methods section in the manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
