Dear Reviewers,

We are very grateful for the suggestions and believe that we have been able to improve the manuscript. Below, we answer all the topics point-by-point.

1. Thank you for providing a statement on authors' contributions. We would also like to ask for you to provide more justification for the contributions of GP, RM, FC, JS and PH, as currently they do not automatically qualify for authorship, based on the information provided.
Thank you for your comment. We re-write this topic to better explain the contribution of each author.

2. It is noted that Figure 2 is included in the manuscript, but no reference is made to this figure in the text. Please add cite Figure 2 in the Results and/or Discussion section of your manuscript.

Thank you. We have corrected this mistake and added figure 2 in the results and discussion section.

3. Please add a Declarations heading to your manuscript, under the Conclusions and Abbreviations sections, that encompasses the following sub-sections:

   - Ethics approval and consent to participate
   - Consent to publish
   - Availability of data and materials
   - Competing interests
   - Funding
   - Authors' Contributions
   - Acknowledgements
   - Authors' Information

Thank you. We have added all the sub-sessions listed above in the manuscript.
