Reviewer’s report

Title: Epstein-Barr virus positive peripheral T cell lymphoma with novel variants in STAT5B of a pediatric patient: a case report

Version: 1 Date: 02 Mar 2018

Reviewer: Vladislav Korobeynikov

Reviewer's report:

In the manuscript, the authors report a rare case of EBV positive peripheral T cell lymphoma associated with a STAT5B mutation in a 9-year-old patient. The report is very descriptive and provides all the necessary clinical information about the case. I recommend the manuscript to be published in BMC Cancer.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
