Reviewer’s report

Title: Galectin 3 expression in regional lymph nodes and lymph node metastases of oral squamous cell carcinomas

Version: 0 Date: 14 Mar 2018

Reviewer: Elismauro Francisco de Mendonça

Reviewer's report:

This is a very interesting paper. In my opinion the discussion section should be improved. For instance, the discussion using topics according results section is not appropriate. I would appreciate to read the discussion in a general aspect based on results.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
