Reviewer’s report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

1. Without (1) AR protein levels and (2) any AR targets to support the findings, I do not feel fully convinced by the data the authors showed in this MS.

2. For my previous comment (Although they discussed the discrepancies between their findings and the previously published data, they failed to address the potential underlying mechanisms to reconcile their findings with that of others), they failed to provide satisfactory answer, too.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
