Reviewer’s report

Title: An improved method of delivering a sclerosing agent for the treatment of malignant pleural effusion

Version: 0 Date: 27 Mar 2019

Reviewer: Georgios Stathopoulos

Reviewer’s report:

This is a very interesting paper describing the effects of talc hydrogel foam on experimental MPE induced in mice by intrapleural injection of LLC cells. The study design, methods, and presentation convinced this reviewer. Well done.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
