Reviewer’s report

Title: Best Fitting Tumor Growth Models of the von Bertalanffy-Pütter Type

Version: 1 Date: 10 Jun 2019

Reviewer: Hermann Frieboes

Reviewer's report:

The authors have for the most part addressed the reviewers' concerns. Some items could have been included in the text to make the manuscript stronger, e.g., that the statistics were unavailable for the original data (previously published) presented in the figures, as well as some other points from the other reviewers that could have been clarified with words within the text. But this should not stop the publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
