Reviewer’s report

Title: Gemcitabine and docetaxel combination chemotherapy for advanced bone and soft tissue sarcomas: protocol for an open-label, non-randomised, Phase 2 study

Version: 1 Date: 09 Jun 2019

Reviewer: Scott Okuno

Reviewer's report:

The modifications/edits have improved the submitted manuscript.

As noted prior, this regimen has been studies and published by many investigators but not in Japan. However, the study combines both bone and soft tissue that results would be limited applicability.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
