Reviewer’s report

Title: Oncologic outcome and potential prognostic factors in primary squamous cell carcinoma of the parotid gland

Version: 0 Date: 22 May 2019

Reviewer: Mohamed Shama

Reviewer's report:

Great job and large data. I think if your data about the negative previous history of head and neck SCC especially skin is accurate, this will be a nice study for a rare disease.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
