Title: Multiple Intraneural Glomus Tumors In Different Digital Nerve Fascicles

Version: 1 Date: 28 Jul 2019

Reviewer: Olga Gutkowska

Reviewer's report:

I find the majority of the corrections introduced by the authors satisfactory. I recommend two minor changes:

Page 3, lines 46-48: This sentence has not been corrected. If there was an increase in localized pain on exposure of the affected finger to cold water, this means that the results of the cold sensitivity test were POSITIVE.

Page 4, lines 63-65: Please correct as follows for a clear meaning: "One tumor was excised along with a segment of the surrounding nerve fascicle, while the other tumor was removed leaving the corresponding nerve fascicle intact."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
