Reviewer's report

Title: Screening differentially expressed genes of pancreatic cancer between Mongolian and Han people using bioinformatics technology

Version: 3 Date: 03 Feb 2020

Reviewer: Helmut Friess

Reviewer's report:

Question 1 is well addressed. As for the question2, I don't think that it there will be "race concerns", as stated by authors. It is totally a valid scientific question to know whether the deferentially expressed genes between Mongolian and Han PDACs (Figure 6) are reflected in adjacent "normal" tissues. These data need to be provided.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
