Reviewer's report:

Title: Linc01234 promotes cell proliferation and metastasis in oral squamous cell carcinoma via miR-433/PAK4 axis

Authors have addressed all the major concerns, only few minor points need to be clarified / rectified.

1. Please include the relevant texts for the supplementary figures added in the result sections of the manuscript with figure number in the bracket.

2. In the Legend of Figure 5 (E), authors have mentioned that data is from RT-qPCR but from figure it seems to be from Western Blot or Simple RT-PCR. Please check.

3. In the revised manuscript, while mentioning Statistical analysis, authors have written that two-way ANOVA was used. But in the Earlier version of manuscript they have mentioned one-way ANOVA. Both the methods used in different conditions. Please check.

4. Please mention the catalog numbers which were provided in response, in the methods section adjacent to their names.

5. Put a gap between two blots in supplementary figure 3(B).

6. In the legend of Figure 5, authors have written HSCC tissues. It will be HNSCC as mentioned in the Results section, please check. Labels of the Fig 1 A, Fig 4 C, Fig 5 A,B and C are too small to read, can it be improved.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

**Are the conclusions drawn adequately supported by the data shown?**
If not, please explain in your comments to the authors.

Yes

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
