Reviewer’s report

Title: Development of a Disease-Specific Graded Prognostic Assessment index for the management of Sarcoma patients with Brain Metastases (Sarcoma-GPA).

Version: 1 Date: 21 Oct 2019

Reviewer: Marcus Tan

Reviewer's report:

The authors have adequately addressed my queries.

I particularly appreciate their inclusion of C-index and improved quality of the figures.

Regarding the c-index, while it is better than for the original GPA, it indicates that much work needs to be done to improve decision-making for patients with this difficult disease.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
