Reviewer’s report

Title: Development of a Disease-Specific Graded Prognostic Assessment index for the management of Sarcoma patients with Brain Metastases (Sarcoma-GPA).

Version: 2 Date: 17 Dec 2019

Reviewer: Anthony D. Elias

Reviewer's report:

The new supplemental Table 2 states that all but 3 patients received intrathecal chemotherapy. This would be extremely surprising in a population having just brain metastases. Is this correct? Some patients had meningeal disease, although it is not clear from the manuscript how many (please clarify). Please make sure this table is accurate.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
