Reviewer’s report

Title: Changes of choroidal structure after treatment for primary intraocular lymphoma: retrospective, observational case series

Version: 0 Date: 04 Sep 2015

Reviewer: Kalpana Babu Murthy

Reviewer’s report:

This is an interesting case report with new findings. The authors need to indicate what is the luminal area, interstitial area in the photograph. A brief description on how the statistical software delineates the above will be helpful to the reader. The manuscript would have carried more weight if it was compared to age matched controls and refractive errors.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
