Reviewer’s report

Title: Acute uveal effusion during phacoemulsification with preoperative central serous chorioretinopathy: a case report

Version: 1 Date: 21 Apr 2017

Reviewer: Rongfeng Liao

Reviewer's report:

I appreciate authors' careful revision of the manuscript. The manuscript was well-written, giving detailed description of the case. The revised version of manuscript explained all my concerns well. However, was a "F" missed in the abbreviation "FFA"(page5, line5)? I believe it is more suitable for publication and would be illuminating.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
