Reviewer’s report

Title: Analysis of various factors affecting pupil size in patients with glaucoma

Version: 0 Date: 27 Jul 2017

Reviewer: hany helaly

Reviewer's report:

it was batter to include 825 of 825 patients not 415 ..i.e. one eye from each patient to avoid duplication of data

subgroup analysis of around hundred eyes under 30 years of age is a good point

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
