Reviewer's report

Title: Analysis of various factors affecting pupil size in patients with glaucoma

Version: 0 Date: 01 Aug 2017

Reviewer: Ronald Schachar

Reviewer's report:

The authors' retrospective study measured the pupil using the Humphrey visual field analyzer and found that the pupil is smaller in glaucoma patients than normals. On Page 2, line 30 change "thicker" to "smaller". Page 11, Line 6 change "optic" to "intraocular lens"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
